Login Functionality
1. If It's a new user
   a. Click on the **Login | Signup** button
   b. The user can register and then login and then he/she can fill the application form.

2. If its a old User
   a. Click on the dropdown named **User Login**
   b. Select the batch you are from 2021 or 2022. In 2023 it will navigate you to the new user login.
   c. The old user will be asked two things: email and mobile number which will be validated against the data we have of the specified user.
   d. After the mobile and email are submitted, an email with an otp will be sent and if the otp is matched then the user can update the form.

3. If the user is new and have filled the form
   a. After the login he/she can only view the form and not update or change anything, and view the status until it gets accepts for fellowship or rejected.

4. If the user is approved for fellowship
   a. The user after login will see the functionalities which are displayed after the approval of fellowship.
   b. He/She has to upload the joining letter as soon as [possible first thing after the login.
